

Mobile Dental Reminder

Research has shown that maintaining regular visits to the dentist keeps dental expenses lower by preventing and catching problems early when they do occur. The Mobile Dental Program will clean your child's teeth in school and provide you with a note stating any further treatment needs. If you haven't enrolled today, please call to do so.

Time has a way of disappearing! Our records show that we visited your son/daughter's school this school year and provided hygiene services. We wanted to remind you that we will be returning again in the 2013-2014 school year. If you are enrolled, stay tuned for dates of return or contact the mobile dental program manager at 203-237-2229 ext. 6281.
